# EXTENDS THE WORK OF BURBANK

## Professor Wickson Declares Plant Wizard's Efforts Are of Utmost Importance to the World.

BERKELEY, July 28.—"Pessimists say the world will starve," Burbank says the world will be fat and kick like Jeshurun because so many plants can be improved and trained to environment. Which is right? We shall know in a thousand years."

Prof. Wickson told a big gathering in Hearst Hall last night something about the life and work of Luther Burbank. He paid a glowing tribute to the "Wizard of Plant Life," described his character, and said that the noblest forms of plant life have ever before.

**DOES WORK HIMSELF.**

Prof. Wickson said in part: "The changes in the fortunes of this great man have not changed the character of the chief actor. Many times I have seen him plant some insignificant looking bulb with his own hands while his assistants stood by watching. These bulbs represent the real things of life to him, and the changed conditions have only given him more scope to pursue the work that he loves. The chief benefit of the Carnegie endowment has been the relief and lifting of the man upon whom it has been bestowed. The award will prove a great boon to the world in allowing him to give his remarkable talents full sway to achieve even greater success."

**HIS WONDERFUL RESULTS.**

Prof. Wickson then gave a resume of the work that the plant wizard has thus far accomplished, which includes over 3000 new species of plums, the work of which has been the result of cross breeding and grafting, 10,000 seedlings, and many thousand pineapple quince, peach crossings and grape vines.

"Mr. Burbank," he continued, "is rising valiantly to his new phase of his present environment. He is undertaking to put his work on a commercial basis, and striving to make propagation and sale of the varieties themselves. His every act is one of philanthropy; the furnishing of the world with a greater beauty or richer sustenance at a lower cost to the human race. His field is limited only by the limitations of the world, and the people look upon him with a reverence and respect that they do not bestow upon any other man. He has no time to make money. He embodies the spirit of the new century. He is capable and effective in the face of distractions. He looks to his achievement, and he serves him most as a stimulus for further research and success."

## Berkeley Society

Miss Martha Gosh, daughter of Mr. and Mrs. E. W. Gosh, and Rev. Stewart were quickly married Sunday evening at the home of the bride's parents in South Berkeley. The Gosh family have been living here but a few months. Previous to their settling in this city they resided in San Francisco. The bride has no business interests here, and after their return from a short honeymoon trip they will reside in Berkeley.

Mr. J. L. L. of 2917 Benvenue street was to have Saturday evening at a 600 party at 11 o'clock to Mr. and Mrs. W. H. Stenger of Los Angeles, who have recently come to make their home here. The Stengers were married a few weeks ago. Miss Grace E. Chao of Los Angeles.

Among the guests were: Mr. and Mrs. E. A. Nickerson and Mrs. Henry W. Taylor, Mr. and Mrs. W. H. Stenger, Mr. and Mrs. H. A. Williams, Mr. and Mrs. W. Rochester, Mr. and Mrs. S. W. Smith, Mr. and Mrs. Charles Brown, Mr. and Mrs. R. W. Spies, Miss Effie Carter, William C. Gosh, Miss Lulu Brown, Miss Lillian Gosh of San Francisco, R. A. Peeler of Chicago, Mr. and Mrs. E. G. Bowles.

Mrs. G. A. Dougherty and family have moved to Berkeley where they will make their home. Mrs. Dougherty will enter the University as soon as college opens and other members of the family will attend the public schools in this city. Mrs. Dougherty is the wife of G. A. Dougherty, a law firm of Dougherty & Lacey, of Salinas.

Miss Zoe Zartman, whose outing with the Elks club was the subject of the death of Miss Grace Barnett, has been spending the interim since Miss Barnett's funeral with her grand-parents in Petaluma, returning Saturday rested and refreshed after her sad experience.

Miss Violet Richardson has returned from a vacation spent at Concord, and is now at home.

## Berkeley Has Most Polite Clerks In America, Declares Professor

BERKELEY, July 28.—"I have traveled up and down in this country a good deal, and have visited the shops in many cities, big and little. In America, and I can truthfully say that the clerks and merchants in Berkeley are the most courteous and obliging and the most willing to accommodate strangers of any I have met anywhere in the United States. The tribute that Professor William Lyon Phelps, professor of English in Yale University, paid to the merchant class of the college town and the men and women employed by the Berkeley trades people, in his lecture at the summer school yesterday morning, has been of enormous importance and incentive to which his friends had been subjected by the thoughtlessness and brusqueness of men paid to render a different kind of service. Then he told of his experience since coming to Berkeley and said that the consideration he had met with wherever he turned, whether in the shops on the street, or in public offices, compelled him to place Berkeley at the head of the parade at the home of the polite and most obliging set of men and women in the country."

## INJURED GIRL TO BRING SUIT

Miss Anna Stirling Declares Intention to Prosecute Owner of Horse That Caused Accident.

BERKELEY, July 28.—As a result of being thrown from a buggy in a runaway along Durant avenue on Saturday afternoon Miss Anna Stirling, of 2502 Dwight way, declares she will sue the owner of the horse, J. W. Moffat, for damages. Miss Stirling, who is an enthusiastic horsewoman, was making an experimental drive with the animal preliminary to purchasing it when the accident occurred. Miss Stirling and young woman friend from San Francisco were both thrown into the street at the corner of Durant avenue and Myrtle, after the horse had run clear from Durant and Telegraph avenues. Miss Stirling narrowly escaped collision with a telephone pole.

**REPRESENTED BY UNCLE.**

Miss Stirling says she was probably represented in the court proceedings by her uncle, J. B. Stirling of Jackson, Miss., who is attorney for the Memphis Railroad Company.

According to Miss Stirling, who has several motor cars, the horse was not safe to be driven by a man, let alone a woman. Although a capable horsewoman, Miss Stirling was unable to control the wild plunging of the horse a week ago.

**NERVOUS WRECK.**

As a result of the accident she is a nervous wreck and will be compelled to go away on a vacation. Moffat has offices in the Pacific building in San Francisco, but resides in Berkeley.

According to Miss Stirling, who is recent of the Banner Chapter, Daughters of the Confederacy, of Memphis, Tenn. She delivered the opening address at the dedication of the women's building at the University of California. Miss Stirling is a native of Mississippi and formerly lived in Los Angeles.

**ENTERTAINED FRIEND.**

Miss Belle Rose of San Jose, who has been the guest of Mrs. James Bagnasco for two weeks, will return to the Garden City tomorrow. Miss Rose was entertained at several social functions by Mrs. Bagnasco and her friends. She is now captivated with Alameda, and she expects to return at an early date for a longer visit and may decide to make her future home here.

**GUEST OF SCHOOL CHUM.**

Miss Gladys Emmons is the guest of Miss Alice Ausler, who is staying with her family at Howardman in the Santa Cruz mountains. The young ladies, who were schoolmates at Notre Dame convent in San Jose, are enjoying many delights in the way of swimming, driving and riding, visiting friends in Santa Cruz or in Brookdale in their daily outings. Miss Ausler is a sister of Mrs. Emmons.

**STORMY INTERVIEW.**

Mrs. Masow did not take kindly to the idea of the marriage at all. There was a stormy interview between mother and son, in which the young man's representations were made to the young man that his future career would be handicapped by a wife. Young Masow is just turned 21 years, and it was represented to him that he should complete his course at college before setting up as the head of a household. When the interview was over the mother's counsel prevailed. Masow proposed to the home of his sweetheart in East Oakland and broke the news, and secured the consent of the girl to "wait."

According to Mrs. Fitch, wife of J. R. Fitch, the Oakland attorney, who is a sister of young Masow, the wedding has not been canceled.

**TEMPORARY POSTPONEMENT.**

"Frank and Miss Swanson will be married, but I do not know just when," said Mrs. Fitch. "I am not very well acquainted with the details of the courtship, but my brother is young and he will not be so much interested in the matter that the family does not care to discuss much. The reasons for the postponement are satisfactory to all parties concerned and that is as far as we care to speak."

**HELEN MASOW'S BROTHER.**

Masow is a brother of Helen Masow, the blind singer, who is completing her musical education in Paris. The family is prominent socially in Berkeley. The blind singer, who is completing her musical education in Paris. The family is prominent socially in Berkeley.

He had left his suit case in a saloon and Clancy and Murphy were identified by the saloon men as the pair who came and got it. They had been drinking with McGrath and the suit case was turned over to him on demand.

# WEDDING IS PREVENTED BY MOTHER

MISS HANNAH SWANSON.

## Affair Takes New Turn on Arrival of Parent, and After Stormy Interview, Would-Be-Groom, Agrees to Postponement.

BERKELEY, July 28.—Frank Masow, a freshman in the University, living at 2801 College avenue, and Miss Hannah Swanson were to have been married last night, but the eleventh hour protest of the young man's mother has succeeded in temporarily at least, postponing the ceremony. When the license was secured Saturday afternoon the road seemed clear to happiness, so Miss Swanson and Masow believed. When Mrs. Masow, mother of the would-be benedict, arrived from Monterey Sunday afternoon there was a sudden change.

Mrs. Masow did not take kindly to the idea of the marriage at all. There was a stormy interview between mother and son, in which the young man's representations were made to the young man that his future career would be handicapped by a wife. ## CONVENTION OF ELKS IS DESCRIBED

Coroner Tisdale of Alameda Re-counts Incidents of Rventful Trip to Big Meeting in Dallas.

ALAMEDA, July 28.—Coroner C. T. Tisdale was returned with the Elks from the Dallas convention, which was held yesterday, and had many interesting experiences of his trip to tell his friends.

He went to Dallas as the representative of Oakland lodge, and had as his traveling companion William Hammond, Jr. of Alameda lodge of Elks. He says that the trip was enjoyed by all Elks who filled their special train, and that the incident at attention and courtesy were paid again by brother Elks along the route.

In speaking of his journey, Coroner Tisdale said:

"We left Oakland on July 7 in a special car and at Los Angeles were coupled on a special Elks train, and the trip was very enjoyable. We were royally treated by the El Paso Elks, who met us at the train, took us to their clubhouse and gave us breakfast. They took us over the line to Durango, Mex. where we saw a magnificent and also the thermometer climb to 120.

**SPLENDID RECEPTION.**

"At El Paso the Los Angeles Elks switched over to the T. & E. route, and we went on to San Antonio, where we were given another splendid reception. We went to Dallas on Sunday and stayed there until the morning of Thursday. On the day of the great Elks parade the population of Dallas was doubled.

"After the adjournment of the grand lodge we went to Kansas City and thence to Denver. We were royally entertained at Denver and then went on to Colorado Springs.

**COLORADO SPRINGS.**

"I must say that Colorado Springs had all the other places visited backed off the map. It is a most beautiful place. We visited the Cheyenne Creek mining region and also went up Pike's Peak as far as Manitou, 8,000 feet high. Then we weakened on account of the high altitude and returned to Manitou. At that place we met General George Stone, who was returning to California from a conference with Chairman Hitchcock of the National Republican Committee.

**DALLAS HOSPITALITY.**

"We visited in Salt Lake and heard the wonderful organ in the Mormon tabernacle. From Salt Lake we came home. I cannot say too much of the hospitality which was lavished upon us by the people of Dallas and by the Elks and others, but hinging a nd coming. It was an ideal trip, one to be remembered a lifetime and nothing more could have been done for us than was done. Not for publication, but just between you and me, William Hammond, Jr. is the finest travelling companion that I have ever encountered. He is the real candy kid and a prince of good fellows."

**DOUBTFUL ROLLER IS GIVEN SECOND TRIAL**

ALAMEDA, July 28.—City Clerk Browning has returned to Henshaw, Elkhart & Co. the \$100 certified check which the firm sent to the clerk, along with their bid for the gasoline steam roller which the city conditionally purchased some months ago. ## 35,000 More Books Issued This Year in Berkeley Than During 1907.

BERKELEY, July 28.—The annual report of the board of library trustees shows that there were 35,000 more books issued than during the previous year. The number of books issued during the year was 35,000 more than during the year 1907. The number of books issued during the year was 35,000 more than during the year 1907.

**CHINESE COMPLAINS HE HAS BEEN ROBBED**

ALAMEDA, July 28.—Quong Fat, a Chinaman who has a vegetable garden at the corner of Grove and Santa Clara avenue, yesterday notified the police that a man was continually stealing his corn. He telephoned that the man was in the field at that time, and that he was gathering a large amount of corn. The police force was sent to the place and found a man named Fred Gross, who lives at the corner of Railroad and Everett avenue. Brown advised Quong Fat to swear out a complaint against Gross, but the Chinaman asked him to let Gross go this time.

**SENDS BURGLAR ALARM; IT WAS ONLY GAS MAN**

ALAMEDA, July 28.—J. C. Ubanke of 1107 Oak street, thought last Saturday that his house had been burglarized, but he was mistaken. He telephoned a visit from the gas man. Ubanke was away from the house all day, and when he returned in the evening he found a small door leading to the rear of the house wide open. He telephoned to the local police and an officer was sent to the premises. He entered the house with Ubanke, but nothing had been taken. The officer, however, solved the mystery of the open door. The gas man, on his rounds, had pried open the door in order to read the meter in the basement.

# NEW PARTY WILL HAVE RADICAL PLATFORM

## DELEGATES IN CHICAGO WORK WITH ENTHUSIASM

Want W. R. Hearst to Lead Them in the National Campaign

CHICAGO, July 28.—The Independence party, which last night launched itself fully into American politics by opening its first national convention, was early today busily engaged in the construction of its initial platform and in the selection of its first Presidential candidate.

The enthusiasm shown by the delegates last night was taken by the leaders of the party as a happy omen and they labored today with great cheerfulness on their first declaration of principles. The resolutions committee which was organized last night after the convention by this selection of Edward S. Taylor of Chicago as chairman continued its work far into the night and was hard at it at an early hour today. There has been no possible doubt that the platform which finally promulgated will be the outcome of a decision entirely free from the influence of any art.

### MANY PLANKS OFFERED.

Planks by the dozen on finance, on labor, and on trusts, and on all three combined and on all shades of variations of all three, were rained upon the members of the committee. The general sentiment, however, seems to be about as on Sunday when the delegates began to arrive in force. A more radical utterance on the position of institutions than was made by either the Democrats or Republicans is favored, the sentiment of the majority being in favor of the political abolition of the preliminary in union as a legal process. A declaration in favor of postponing prohibition until after a full trial by law had been found the greatest number of adherents.

### WHAT CALIFORNIANS DEMAND.

The Californians are strongly pressing for a forcible declaration against Asiatic immigration and a strong plank on this subject is looked for. It is also probable that the financial plank will favor the issuance of all money direct by the government instead of through the medium of national banks.

Over-capitalization of industrial enterprises will be denounced and an amendment to the Sherman anti-trust law providing that it shall not apply to combinations of business is being asked for.

### DELEGATES WANT HEARST.

Despite the fact that Mr. Hearst has repeatedly declared that he will not be a candidate for the Presidency there is a strong sentiment among the delegates for securing the nomination if he desires. It is said that either T. W. T. or B. T. T. of the Pennsylvania delegation at its caucus declared unambiguously for Hearst in the face of his positive assertion that he did not care to be considered. The New Jersey delegation also declared to vote for him and it is known that New York people will do so at the first opportunity that is given them.

### HISGEN LOSES STRENGTH.

Mr. Hisgen up to the time the convention convened, was considered to have a fairly strong lead in the race but the excellent impression on the convention made by the matter of Mr. Hearst's speech as temporary chairman and by the manner in which he delivered it brought him so strongly to the front that Mr. Hisgen to admit the fact is pushed somewhat to the rear. He and his friends were today, however, surprisingly confident that he would be the nominee.

John Temple, Georgia, who says he will be nominated and Georgia is second from New York, declares that nothing but a stampede by Mr. Hearst will prevent his nomination.

### OTHER POSSIBILITIES.

W. H. Dixon of Alabama has many friends and expects to pull a large vote. Neal of Indiana is practically out of the race. His State has been willing to bring his name to the front but Mr. Neal is not doing the thing. It is probable that his name will not be presented to the convention. Charles A. Walsh of Iowa has many friends who are pushing his name, but his candidacy thus far has not proved as strong as that of Hisgen, Howard or Graves.

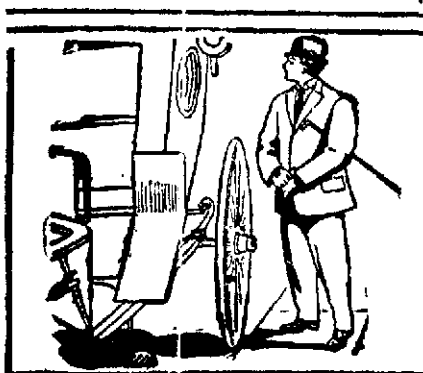

C. J. Hagerman of Nevada is being mentioned for Vice President, but the general opinion of the delegates is that the ticket will be awarded to some Presidential candidate who runs strong.

### STEEL CORPORATION DECLARES DIVIDENDS

NEW YORK, July 28.—The regular quarterly dividend of 1 1/4 per cent on the preferred, and one-half of one per cent on the common shares, were declared by the directors of the United States Steel Corporation today.

### CHARGED WITH THEFT OF HORSE AND BUGGY

William Dixon was arrested today in Sacramento for the alleged theft of a horse and buggy from the livery stable of J. A. Freyer, 1252 E. Twelfth street, two weeks ago. Dixon, whose past history is not known to the local police, was taken in custody in the capital city on telegraphic information sent out by Chief Wilson. He will be brought back to Oakland for trial.

## CALIFORNIA LEADS THE GHEERING

Oakland Men Prominent in Demonstration in Favor of W. R. Hearst at the Chicago Convention

CHICAGO, July 28.—California received a complimentary last night from the Independence party.

It came just after one of the most sincere demonstrations of enthusiasm known in any political gathering. Warm out with shouting, the vast assembly of the national convention had subsided after choosing the name of William Randolph Hearst until the sergeant-at-arms had stopped the demonstration.

Then a committee of three men was named to escort Mr. Hearst to the platform, where he was to deliver the keynote address of the convention, an address that opened the convention of a new party, and that had all of the hypocrisy and faithlessness of the old parties.

Gesner Williams of Los Angeles was named as one of the three. The honor was a complete surprise both to Williams and his delegation, and he stepped from his seat in California and gave a rousing cheer for Williams and the man he was to escort to the platform.

### CALIFORNIA LEADS MARCH.

During the demonstration for Mr. Hearst the Californians, in fact all the Westerners were leaders in the wild applause. As the tumult started, a beautiful silk banner, a reproduction of the old "Bear Flag" of the California republic, other Californians seized the Stars and Stripes by Chairman Hearst's native State that led a march of States in which State and State banners waved in wild confusion until the tumult reached its wildest height.

The Western men drank in every word of the leader's address. Daniel O'Connell shouted his applause. Hugh J. McClellan climbed upon his seat and was followed by Chairman Hearst, a native of the Nevada county committee, J. D. MacGaughey, the labor leader from Fresno, usually undemonstrative, shouted lustily at each of the speaker's cutting points.

### BEAR FLAG HEADS PROCESSION.

The Westerners cut a wide swath. Over eighty strong they marched from their train to the national convention headquarters at the Auditorium. The head of the march was the big bear flag which, first raised in the cause of independence, was prominently in place at the head of these sturdy pioneers of political party.

In the annex delegates called for cheer upon cheer for the new party, for William Randolph Hearst and for various party abolitionists.

### JOHN KEARNS GOES TO A NEW POSITION

John Kearns, division superintendent of the Oakland division of the Pacific Telephone and Telegraph Company has received a deserved promotion. Hereafter he will be superintendent of the commercial department with headquarters in San Francisco. He will have full charge of the business in this branch from the Oregon line to Kern county on the south, embracing the San Joaquin, Santa Clara and Sacramento valleys.

Mr. Kearns is promoted because he had made good in the service of the company. He is a pains-taking, obliging and conscientious official. There are few who know the business better than Mr. Kearns. His many friends here are sorry to see him go away but they wish him success in his new line and know that he will make good wherever he goes. The local department in Oakland will be in charge of Mr. Delany, the capable and obliging local manager.

## HEARST SOUNDS KEYNOTE OF NEW PARTY AT OPENING OF INDEPENDENCE LEAGUE CONVENTION

CHICAGO, July 28.—In opening the first annual convention of the Independence party gathered in Orchestra Hall last night, William R. Hearst, the founder of the new party, spoke as follows.

My Friends—This is the first national convention of the Independence party.

Whether it shall prove an historical event, or merely a passing political incident, depends upon the wisdom and patriotism with which we shall deliberate and act.

If the men who met in Independence Hall, in Philadelphia on the 4th of July, 1776, had had within them any feeling of hesitation and disposition toward compromise or concession, that day would now pass as any other day upon the calendar.

### Courage in Their Hearts.

But the patriots who assembled there had courage in their hearts, determination in their minds, high purpose in their souls and the Fourth of July is saluted throughout the world as the birthday of Liberty for all men.

It is too much to say that our convention can ever reach the importance of the second continental congress, but the principles they met to declare we have met to preserve and the Liberty they assembled to secure we have assembled to protect.

### Government Founders

I believe, therefore, that we will do a service to our fellow citizens second only to the inestimable service rendered by the founders of this government if we shall found a party which will remain unfalteringly faithful to the cause of the plain people to the principles of the Declaration of Independence and to the fundamental American ideas of liberty, equality and opportunity for all.

I believe that if any party is necessary in this country to preserve the government as the fathers framed it, a new party is necessary. If any party is necessary to promote progress and prosperity, to encourage the honest business man and protect the rest of the working man, a new party is necessary; if any party is necessary to represent the typical American citizen, that constitute the people in their struggle with the tyrannical monopolies which constitute the trusts, a new party is necessary.

### Work of Old Party.

In 1792 Thomas Jefferson, who had penned the principles of the Declaration of Independence, founded the Democratic-Republican party to perpetuate those principles.

In 1840 this party, founded to be the party of the people had become the party of privilege, and the Democratic party came into being and crystallized about the personality and principles of Andrew Jackson.

In 1854 the Democratic party had become the property of an arrogant aristocracy which denounced the self-evident truths of the Declaration of Independence as "self-evident lies." Then the Republican party was born to restore the action of the government to the principles of Washington and Jefferson and Abraham Lincoln led it to victory.

### Back to First Principles.

It is not time, is there not need for a new party which shall take up the work of the parties of Jefferson, of Jackson and Lincoln and preserve the parties of Jefferson, of Jackson and of Lincoln and preserve for us and for the citizens of the future the rights and liberties which these parties in their hour of usefulness preserved for the citizens of their time?

The old parties, in this day of their decadence, are no longer equal to the work, for they have become unfaithful to the principles which inspired them and unworthy of the patriots who founded them.

### Handmaidens of Trust.

The Republican party is the open and avowed handmaiden of the trusts. It scorns those who would reform it and glorifies brazenly in its profitable infamy.

The Democratic party is merely envious of the sordid sisters ill-gotten money. It upbraids her at one election and imitates her at the next.

The Republican leaders are the political attorneys of trusts and monopolies, the representatives in public life of those giant corporations which have superseded the people in this republic as the source of power and the seat of authority.

### Scores Democrats.

The Democratic vanguard is a Falstaff's army. It is led by a knight arrayed in a motley of modified professions and compromised principles, of altered opinions and retracted statements.

It is offered by such soldiers of fortune as Sullivan and Hopkins, and Murphy and McClellan, by Tom Taggart, the roulette gambler and Tom Ryan, the Wall street gambler, and

WILLIAM RANDOLPH HEARST

Belmont, the race track gambler.

It is composed of such political mercenaries as Bulley of the Standard Oil and Williams of the Southern railway and Hinky Dink and Bath-house John and Red Duffy and "Nigger Mike"—all harmonized at last and all marching together in a rhythmic cadence strongly suggestive of the lock-step.

### "After the Deluge."

A Falstaff's army whose banner bears on one side a watchword for the people and on the other a password for the trusts, whose only object is office at any cost, whose motto, "After us the deluge."

Assuming that Mr. Bryan himself is all that his most ardent admirers claim him to be, a great lawyer, an enlightened statesman, an inspired patriot, still a man is known by the company he keeps, and no decent Democrat can tolerate his free companions.

No honest citizen can let down the bars of office to such an All Baba's band of boodlers and braves.

No prudent citizen will support a combination to which Taggart supplies a candidate and Parker a platform, for which Ryan will pay the freight and the people will pay the penalty.

### ANNOUNCEMENTS.

**FILTERS THE NIGHT AIR THROUGH AN OPEN WINDOW**  
AWNING MAKER FIGURES OUT A PRACTICAL DEVICE FOR OPEN AIR SLEEPING—NO DANGER FROM DRAFTS.

Doctors are advising their patients to sleep out of doors but it isn't always practical to do so. Some of us have no sleeping porches and others live in hotels where such a thing is utterly impossible. We can't sleep next to an open window without getting in a draft, so until recently were utterly unable to follow the good advice given us.

But F. Thoms, the awning maker in charge of the business of F. Dahl & Co., 573 Eighth street, Oakland, seems to have solved the problem by inventing an arrangement of canvas which fits over the bed (after it has been rolled up next to a window), and projects out of the window, collecting the air by a scow-shaped attachment and distributing it purified by a series of filters to the sleeper.

"My invention," said Mr. Thoms, "is really creating quite a good deal of interest. In fact, I've sold a number of them already, particularly to physicians who buy them, I suppose, for their patients. The arrangement is quite simple and any one can attach them to their bed and window without the least trouble. The beauty of the scheme is the fact that the air is filtered through several thicknesses of netting

ing too from the opposite side, and so party can honestly represent the citizens where their interests conflict with the exactions of the trusts if it has been contaminated by a corporate campaign fund and subsidized influence and subservience.

### Legitimate Business.

I urge our party to take a broad and liberal stand toward the legitimate business enterprises of the country, but to distinguish between honest business everywhere and those corporations which plunder through political pull and pay for political protection.

Good wine needs no bush and honest business needs no bribe.

Honest business and prosperity are almost synonymous terms. As one develops the other increases; when one is unduly disturbed, the other falls.

Reforms must be made as the country develops and people progress, but these reforms should be carried out by those in authority without spite or prejudice, without egotism or sectionalism, without a brass band or a big stick.

### To Prevent Fraud.

Not all who ask to be let alone really want to be let alone.

The thief may well ask to be let alone in his thievery, but the legitimate business man should ask for all the encouragement that an intelligent business administration can properly provide. It is a fundamental function of government to keep the peace, and to keep the peace it must interfere to prevent fraud and violence and extortion and oppression.

It is a fundamental function of government to maintain morality, and to maintain morality it must interfere to secure business morality as well as personal morality.

It is a legitimate and proper function of government to promote conditions that will increase wealth and bring about a just distribution of wealth, that will secure increased profits for honest men and insure a fair division of profits for honest workmen.

### Prosperity for All.

We all want prosperity, and, what is more, we want prosperity for all.

Back of both parties and underwriting such as those Captain Kidds of industry, those highwaymen of high finance who realize that to plunder safely the people's purse they must first possess the people's government.

When I was running for governor in New York, an emissary of one of the biggest men in Wall street called upon me and said that his client offered to contribute \$100,000 to my campaign fund and to raise several hundred thousand more if my views were reasonable in regard to the honest business. I told the emissary that the offer was declined with thanks.

### Honesty Needs No Bribes.

I said that the gentlemen making it were merely proposing to waste their good money, for whatever business was honest I would deem it my duty as a public official to promote and encourage it without any \$100,000 bribes, and wherever business was dishonest not all the money in Wall street would influence my attitude toward it.

I merely mention this incident to show what I believe should be the attitude of any honest candidate and the policy of any honest party.

No lawyer would serve his client honestly who would receive a retain-

I urge our party, therefore, to be intelligently and courageously constructive—not merely obstructive like the Republican party, or destructive like the Democratic party.

The Republican party says nothing and means nothing.

It is a platform of statistical inventions and political evasions.

It is obviously the product of a party whose sole purpose is to stand pat and whose sole desire is to stay pat.

The Democratic platform contains some good and original things, but as has been said, the original things are not good and the good things are not original.

### Built by Political Jackdaws.

It was built by political jackdaws, who feathered their nests with the plumes of others without understanding of their significance, or intention as to their performance.

It is the habitation of a hermit crab which has no shell of its own and invades the first convenient one without regard to property or propriety.

It is a platform, too, of reconciliation and retreat, of atonement and apology of harmony and hypocrisy, for in compliance with a former compact Parker has pronounced peace, Joe Bailey has poured Standard Oil on the troubled waters and Bryan has killed not only the fatted calf, but the goose that laid the golden egg.

### Can Serve One Master.

No man can serve two masters and no man can conciliate the conflicting elements of the Democratic party.

He who tries must serve one and deceive the other—must make public pretense to the people and private compact with the trusts.

Our party is not a party of factions or sections or cliques or classes. We have no warring wings to pacify, no contradictory declarations to modify, no corrupt bosses to satisfy.

Let us act boldly and speak plainly. Let us make a platform so clear and so sincere that every citizen will understand our position and have confidence in our intention.

Let us nominate candidates from among the many men here present, whose lives and deeds are a guarantee of the genuineness of their attitude—a pledge of the sincerity of their professions.

Then let us go forth to an honorable effort for a righteous cause, to battle and victory.

ALAMEDA, July 28.—A plea of guilty was entered by the Post Brothers in Judge Tappan's court yesterday morning to the charge of operating a slot machine. The charge was brought up at the instigation of the Civic League. Sentences was suspended by Judge Tappan. This is the first case being tried under the Civic League on a slot machine charge.

## Heney's Remarkable Admission at Watsonville.

Francis J. Heney made a speech in Watsonville last Saturday night in which he made some queer admissions. If he was correctly reported by the Watsonville Register, his statements carried the broad inference that the graft crusade was a fight begun by Rudolph Spreckels against Patrick Calhoun and the United Railroads. Here is what the Register quotes him as saying:

"Calhoun is a brave man, physically, but he was not held up by a little scrib like Abe Ruef. Calhoun did not have to give up. He offered the bribes. The deal was made before the fire. The overhead trolley franchise went through and Rudolph Spreckels said, 'I'll fight you. You have not acted in good faith.' This statement was made to Calhoun and Holland. Calhoun refused to put in an underground system when Spreckels offered to pay, out of his own pocket, for a trial underground system."

This is a plain statement that Spreckels began the fight on Calhoun. Heney, of course, ascribed only lofty and disinterested motives to his patron, but he failed to mention the fact that shortly before the fire Spreckels had vainly besought of Schmitz and Ruef a blanket franchise largely superimposed on the lines of the United Railroads, and that when the fire came he and James D. Phelan were organizing a street railway company to enter into competition with Calhoun's corporation. That inchoate competing system was kept alive till a few months ago when it was dissolved because the newspapers began to speak of it in connection with the granting of immunity to the boddling Supervisors on condition that they give incriminating testimony against Calhoun and other corporation heads with whom Spreckels was in personal and financial antagonism.

All this recalls the history of the Independent Light and Power Company the Spreckels outfit launched during the days when Phelan was mayor, ostensibly to give the people of San Francisco a cheaper and better service. Phelan was an active coadjutor in the enterprise. After a brief career as a competing system, the Independent Light and Power Company was consolidated with the old San Francisco Gas, Light and Heating Company, and Rudolph Spreckels appeared as the head of the consolidation. It is reported that the Spreckels netted a profit of one or two millions by the transaction. The benefits the public was to receive have never materialized.

Subsequently Spreckels was compelled to retire from the presidency of the light and power corporation because of the antagonism he provoked among the other stockholders. He has been at bitter enmity ever since with the men who succeeded in control. These men were indicted at the instance of Spreckels on the testimony of the boddlers to whom he had granted immunity.

But what right had Spreckels to tell Calhoun how he should run his railroad or prescribe the system he should adopt? It was for the public through their official representatives to say whether the electric roads should be operated by an overhead or an underground system, and it rested with Calhoun and his associates to say whether they would change from the cable to the electric system on the terms proposed by the city. Who authorized Rudolph Spreckels to dictate terms?

So far as Heney's reiteration of the charge that Calhoun bribed the Supervisors is concerned, we have only this to say: If the charge is true Calhoun should be tried and punished. But why is he not tried? He has for a year been demanding a trial, but the prosecution has quibbled and pettifogged in a hundred ways to evade having the case brought to an issue in court. Heney has in numberless public speeches and interviews declared he had abundant proof to convict Calhoun, but he has thus far evaded all efforts to get him to bring those proofs into court. He has preferred to try Calhoun in the newspapers and on the stump. Now he is out making political speeches in the interest of Rudolph Spreckels and defending the conduct and motives of his patron. His alleged pursuit of grafters has turned into a sophisticated justification for opening the door of escape to a band of scurvy official thieves with whom his patron has formed an offensive and defensive alliance.

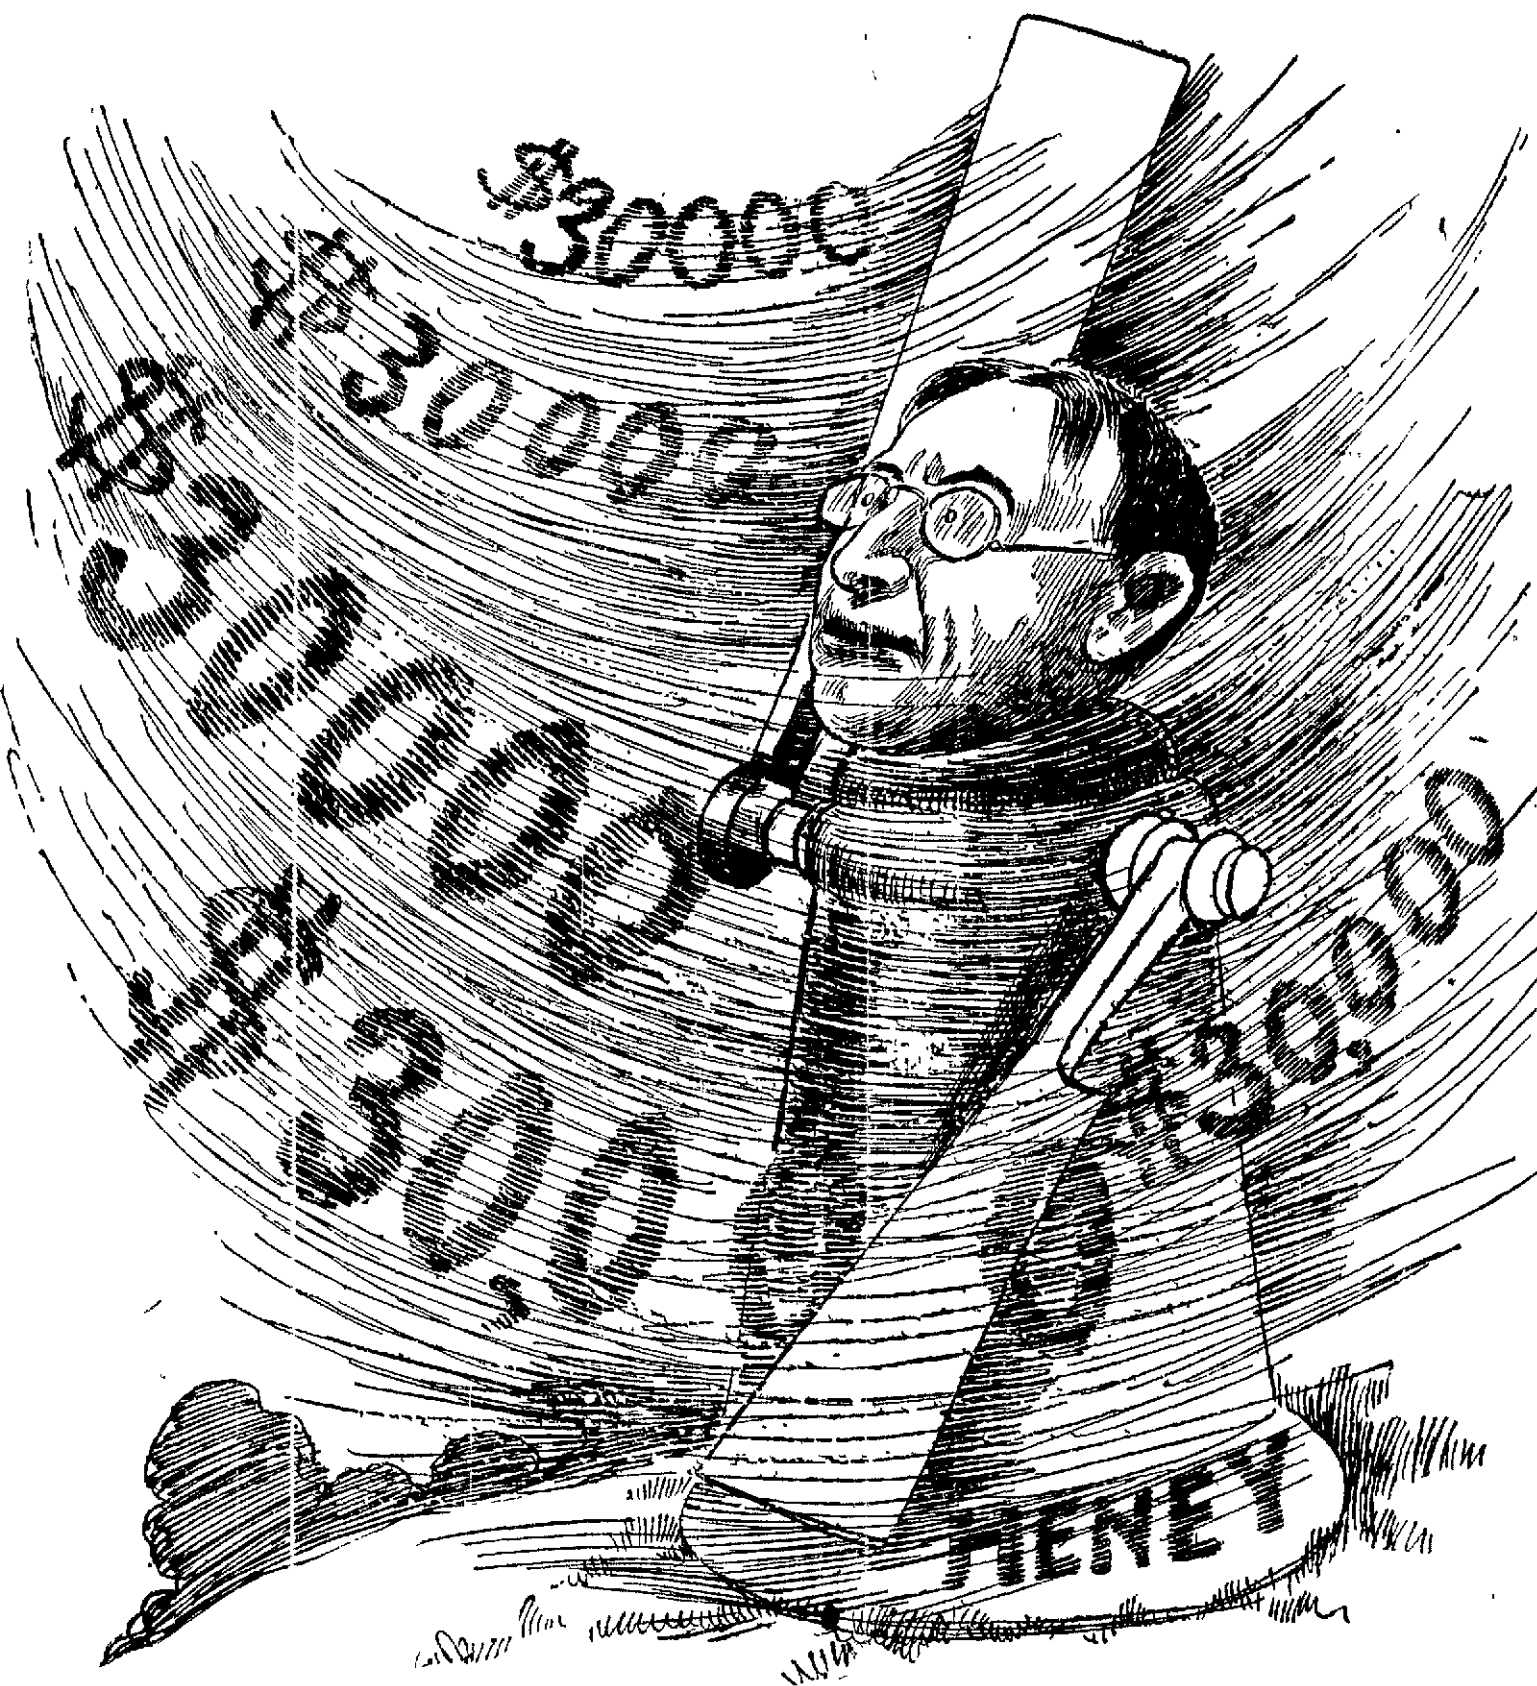

Stuffing the register to aid the cause of reform does not appear to shock the moral sensibilities of some people who pretend to be over-nice in matters political. They seem to think the adage that everything is fair in love and war applies to politics, and have no hesitation in resorting to expedients which the law bans as criminal. But then the end justifies the means, according to their view. Like the man who was determined to have peace in the family if he had to lick the old woman every day, they feel bound to defeat the forces of evil at all hazards even if they have to stuff the register to do it. But a large number of healthy-minded people discern only an evil intent in carefully planned frauds on the franchise. They are unable to see any true reform which begins with false accusations and frauds on the ballot. And when the roll is called of the reformers who are the leaders and are to be the beneficiaries of the reforms promoted by criminal agencies and disreputable characters they are still less liable to believe that evil is being done that good may result from it.

The improvement of the water frontage owned by the city is one of the necessities of the near future, but the proposition to bond the city for several millions to improve it at this time is premature. While its immediate improvement is desirable from one point of view, the commerce of the port at the present does not justify such a large expenditure at once. Besides, the city has other needs loudly calling for attention. Suggestions for water front improvement by the municipality should be more moderate and more in accordance with the financial condition of the city. Extensive improvements should not be undertaken till there is better evidence that they will return an adequate income on the investment. Just now Oakland has no money to throw at the birds.

District Attorney Langdon announces anew his confidence in Francis J. Heney and his distinguished consideration for the great prosecutor. He will not inquire what Heney did with the \$30,000 he received from the Contra Costa Water Company nor ask why Heney was paid \$42,500 for a few days' casual service to the corporation. Langdon says that was Heney's private business. In that he coincides with the public view. He would also consider it impertinent to inquire how much money has been paid Heney's law partner by Rudolph Spreckels, and would regard it as perfectly scandalous to push such an inquiry to the extent of asking if the said law partner gave Heney any portion of the fees he received from Spreckels in connection with the graft cases.

Turkey stands in much greater need of a free press and a system of popular education than she does of constitutional government.

## THE DUTCH WINDMILL IN A STORM

However, these are included in the demands of the Young Turkey party. A capable representative body can only be returned by an enlightened electorate kept informed by newspapers free to publish the truth.

The Arizona newspapers are hammering away at Taft and Bryan just as if Arizona had a vote in the Electoral College. Probably the able editors are looking to the Territorial rewards to be distributed after the new President is elected.

Alameda ought to boom when the marshes are filled and the Southern Pacific steam lines are electrified. The town will be released from its comparative isolation and brought into the thick of industrial progress. We are glad prospects are so bright for our neighbors across the harbor.

It is a good thing for Bryan that he is a good loser, but a bad thing for his party that he is such a poor runner.

There would be fewer dinner pails empty if there were not so many beer cans filled.

### RUDOLPH SPRECKELS BUTTS IN.

Rudolph Spreckels has been complicating matters of the league by butting into the game. He knows as much about politics as a goat and thinks to force things through in his bullheaded way. In this affair of the county committee he has been playing the same game that has injured the graft prosecution so much. That is to say, he has been fighting the Devil with fire with the only result that he has got his fingers badly burned. When the organization leaders began to offer inducements to get hold of the committeemen, Spreckels tried to beat them at their own game. Of course, they outbid him easily. Indeed, one statesman by the name of Levy, when he was offered a job at \$5 a day to stay with the league, very candidly confessed that it was not enough for him—San Francisco correspondent of Stockton Mail.

## EASY TO CURE CATARRH

JUST BREATHE IN MYOMEL, THE DRY AIR THAT KILLS THE GERMS.

You can do exactly what G. J. Sterner did by using Myomel. Read this. After having suffered from chronic catarrh for years, for which I tried various remedies without success, I became almost discouraged. After reading about Myomel, I decided to make one more effort to rid myself of the dread disease, and to my great delight I found the use of two bottles of the inhalant sufficient to produce a complete cure. I now take pleasure in recommending this remedy to all sufferers from catarrh.—G. J. Sterner, Crown City, Ohio.

We don't simply say Myomel will cure catarrh, but we say that leading druggists guaranteed it to cure catarrh, or money back. They do more, they guarantee it to cure asthma, bronchitis, hay fever, coughs and colds. A complete Myomel outfit, including inhaler, costs only \$1.00, and extra bottles, if you afterwards need one, will cost but 50 cents. Myomel is a pleasant dry air treatment. You just breathe it in, and as it passes over the inflamed membrane, it kills the germs of catarrh, and always all inflammation.

been published and will be accepted as a text book for the entire world.

During Mr. Morrell's archaeological researches he discovered portions of the outer wall of Jerusalem. It is hoped that he may be able to make a visit to this coast before he leaves the United States.

# SOCIETY GIRL IS SAVED FROM DEATH

## BERKELEY SINGER IS RESCUED FROM RIVER

### Miss Lydia Sturtevant Owes Her Life to Vollmer's Bravery

BERKELEY, July 28.—News has just come of the heroic rescue from drowning of Miss Lydia Sturtevant, the popular Berkeley society girl and well known contralto soloist. The young lady was snatched from death late Saturday afternoon in the Mission river near Camp Vacation after she had sunk for the last time.

Chief of Police August Vollmer of Berkeley was her rescuer and he saved her from the same deep and treacherous hole from which he took two young society women of San Francisco a year ago.

Miss Sturtevant's friends were greatly alarmed when they heard of her terrible experience, but they have communicated with the camp on the river and learned that she has recovered.

#### RISKED HER LIFE ON A WAGER

Saturday afternoon a party consisting of Miss Sturtevant, Chief Vollmer, William Such, a Berkeley capitalist and Miss Sturtevant went for a swim in the river. They had been swimming across the stream several times and were considerably fatigued. The Berkeley girl, however, insisted that she could again cross and wagered Chief Vollmer to that effect.

Miss Sturtevant went into the water. Near the center of the river she suddenly sank. Then she came to the surface and called for help.

The others in the party had gone a little way from the bank, but Chief Vollmer hurried to the girl's assistance. When he reached the spot where she had again gone down it was necessary for him to dive to the bottom for her.

#### WAS UNCONSCIOUS FOR HOURS

The chief took Miss Sturtevant to the bank. She was unconscious for several hours and it was at first feared that she could not be revived.

Miss Sturtevant is one of the most prominent vocal artists on this side of the bay. She was educated abroad and has made a number of notable appearances.

The two young women who were saved last year from the same hole by Chief Vollmer are Miss Vivian Freeman and Miss Carrie Becker of San Francisco.

## SLEUTH OF BURNS IS ARRESTED

Private Detective Accused of Striking Companion in Dice Game Over Head With a Revolver.

(SPECIAL TO THE TRIBUNE)

SAN FRANCISCO, July 28.—As the result of a quarrel and fist fight over a dice game in B. J. Babcock's saloon at 961 Golden Gate avenue last evening, Robert Ellis, a private detective in the employ of Gun Shop Burns, is alleged to have struck Thomas D. Devine, a musician over the head with a revolver. He was later arrested by Police men Walsh and Mitchell and charged at the police station with assault with a deadly weapon and carrying a concealed weapon.

At the Central Emergency Hospital, where he was taken, it was reported that the wound in the forehead stitched up, Devine said that the assault on him was unjustifiable and seemed related to the arrest of his assailant.

## GREEN, WHO IS REPRESENTED BY BROBECK, GIVES TESTIMONY

Examination of Parkside Defendant Expected Completed Today

(Special to The Tribune) SAN FRANCISCO, July 28.—J. D. Green, G. H. Umbson and W. I. Rio, all of whom were indicted by the grand jury together with Abraham R. Rio for bribery in connection with the Parkside realty deal, were in attendance during the trial before Judge Causland this morning.

Yesterday afternoon Green had refused to answer questions without consulting his attorney and today W. I. Brobeck, formerly of defendant with him, appeared in the capacity of legal counsel and Assistant District Attorney Ward went on with the examination. The facts brought out today dealt largely with the several transfers of property to the Parkside company, which had been gone over already.

On the promise of Attorney Newburg representing the defendant that the ex-

amination of Green would take all of today and perhaps all of tomorrow, G. H. Umbson was excused from attendance on the trial.

The 11th of the proceedings have been the public to in a measure lose interest in the case and but a handful of people were present at today's session.

## WOULD FIX RATES IN PEACE

Shippers in Illinois Seek Conference With Railroads Regarding the Proposed Higher Freight Tariff

CHICAGO, July 28.—Action toward securing an understanding between the railroads and the shippers in regard to the proposed advances in freight rates will be taken today by a conference of the shippers by representatives of the Illinois Manufacturers' Association.

Frederic W. Upham, chairman of the committee of eighteen representatives of the shippers, invited to a conference held in Chicago on May 17, to present a letter which will be sent out today to the presidents of all roads in official classification territory (north of Ohio and east of the Mississippi river) asking them to appoint a time and place for a conference with regard to the proposed increase.

It has been generally understood that the railroads have practically decided to postpone all further action of a general nature in rates until the summer 1, and the proposed increase of the shippers and the shippers is expected to clear up any doubt in the matter and to determine whether the increase will be declared. With this invitation is included a copy of the resolution adopted at the shipper conference protesting against the proposed increase.

### PROBATIONER IS FREED BY JUDGE AFTER WARNING

Youth Who Was Handy With Controller Bar Is Admonished

John Nigle, a young man who was released on probation some ten months ago by Judge Henry Meloy, was again in court before Judge Nigle yesterday morning charged with criminal assault upon a street car conductor. The young man was living at a West Oakland home and had already paid his fare when the conductor approached him and demanded that he pay again. Nigle refused to do so, whereupon the conductor became abusive and threatened to put him in the car. As he approached Nigle seized a controller bar and struck the man which his attorneys claim was a mere reflex action. Nigle was released on probation for ten days.

## YOUNG GIRL SWALLOWS POISON

Brooding Over Her Own Illness and Death of Her Mother, Young Woman Attempts Suicide.

(Special to The Tribune) SAN FRANCISCO, July 28.—Rondeau, desperate by what she believed to be an incurable ailment and despondent from brooding over the death of her mother, a young girl who seems scarce, more than a child, riding on a bicycle street car shortly before midnight.

The girl boarded the car at the ferry depot and her apparent youth and the lateness of the hour attracted the attention of Conductor Albert Mason. He was wondering why she should be by herself and accordingly paid particular attention to her during the trip. As soon as the car had started he noticed something peculiar in her actions and just after she had put her hand to her mouth he heard her say "I am going to die."

### RESCUED BY CONDUCTOR

He went forward on the front platform in the course of his duties and returned to find her doubled up in paroxysms of pain on the seat. His car was just crossing Fremont street at the time and he saw the signal to stop. Police-

man Burnst of the harbor station, who was on the corner, was called and an ambulance from the harbor emergency hospital was summoned.

When the girl was placed on the operating table Dr. Hill immediately detected the odor of bichloride poisoning and a search of her coat revealed a box of tablets in her pocket. An antidote was immediately administered and the surgeon worked over her for an hour in an effort to save her life. At 2:30 this morning she was taken to the central emergency hospital, where Dr. Pinkham again treated her.

### BROODED OVER MOTHER'S DEATH

This morning when she had in a measure recovered she stated that she had been suffering from stomach trouble and was under the care of Dr. Quinn of 1541 Thirteenth avenue (south). She said life had been valueless to her since the death of her mother, a little over a year ago.

The surgeons were unable to tell this morning whether she would recover or not as bichloride poisoning permeates the entire system and sometimes results fatally after the patient has lingered for seven or eight days.

# Gould's Surrender Control

In Great Need of Financial Support, He May Have to Yield Direction to Harriman

CHICAGO, July 23.—Wall street and the railroad financial world are wrought up to the highest pitch over the extreme possibility of the elimination of George J. Gould from the control of railroad management and the substitution of Edward H. Harriman in his stead. The matter became acute today when it was stated that Gould would return to Europe Tuesday and will seek the aid of Kuhn, Loeb & Co. in reorganizing and reorganizing of his railroad properties. There are strong intimations that the banking house will insist that Harriman be given control.

Negotiations have been carried on for several months between Gould, Kuhn & Co. and the Harriman interests concerning the Gould properties. As the negotiations now stand, there is a fair probability that they will go through and that the result will mean an entire change in the management of all the Gould lines in the East and the elimination of George J. Gould as the autocrat of the Gould system.

**GOULD NEEDS HELP.**  
It is recognized in Wall street and even in Chicago, closely connected with Gould, that he cannot continue to stand alone. Therefore he is said to have had many conferences in the matter of the Gould situation in the East with Harriman, and also with Kuhn, Loeb & Co. and while as yet nothing has been definitely done, the matter will be taken up again on Gould's return, and there is a fair probability that the idea will be carried through.

The position of the Gould lines in the East, as all know, is precarious. The lines are in urgent need of relief and much of them are being sold to the Harriman organization. There is a good reason for stating that Gould is anxious for the financial support that would come from Kuhn, Loeb & Co. and Harriman.

**HARRIMAN TO LEAD.**  
The deal will make Harriman the greatest railway king in history. He will be in absolute control of vast systems from ocean to ocean and from the Great Lakes to the Gulf. He will have power to dominate rates and other conditions. His only formidable competitor will be James J. Hill in the Northwest.

Three of the Gould properties are now in the hands of the Harriman organization. The Milwaukee Road, for example, is in the hands of the Harriman organization. Financial experts must accept the terms named by Harriman and surrender control.

# Bars Fail to Prevent Wedding

Couple at Cripple Creek are United With Hands Clapsed Through Window of Groom's Cell

CRIPPLE CREEK, July 23.—A marriage at the County Jail occurred under unusual circumstances last night when formerly of Hana Albert, a musician from Olathe, Kan., and Miss (name withheld) of Olathe, Kan., daughter of the United States marshal at that place, were declared man and wife by Rev. Inman, a Methodist minister of Olathe, Kan. The wedding ceremony was held in the jail cell of the groom, who was held there on a charge of larceny. The bride, who was also held in the jail, was allowed to enter the cell through the window. The ceremony was witnessed by the jailer and a few other inmates. The bride and groom were both dressed in formal evening wear. The ceremony was held at 10 o'clock last night.

# Discards \$500 in His Old Trousers

SAN FRANCISCO, July 23.—W. R. Williams, a soldier, who was recently mustered out of service at the Philippines, left \$500 in bills and a ticket to Chicago in a pair of trousers which he discarded after buying and putting on a new suit in a clothing store at 77 Market street Saturday afternoon. He left the store and did not discover his loss for about an hour.

When he returned he met the proprietor standing in the doorway, holding in his outstretched hand an envelope containing the articles and marked with Williams' name. Williams arrived in San Francisco Saturday morning. When he was discharged his chest was found to contain \$500 which the government held for him at Angel Island and which he had lost.

# Dentist is Held for Boy's Death in Chair

CHICAGO, July 23.—James Fowler, a dentist who had practiced dentistry for over twenty years, was held to answer to the grand jury charge of manslaughter by a coroner's jury following inquest over the body of Stuart Fowler, 4 years old, who died after he had been put under an anesthetic by the dentist preparatory to having four teeth extracted.

Duponts Win  
From Boraxos

The Dupont Powder baseball team defeated the Boraxos team Sunday at St. Mary's College by a score of 6 to 1. The game was a fast one and was well played. The features were the errorless game put up by the Duponts and the pitching of Wilson, who struck out 13 men. The Boraxos players are a bunch of good fellows and play good clean ball. Mason pitched a good game for the Boraxos. Score follows:

Wiley B. Allens  
Beat Petaluma

The local team was treated to the first shutout of the season Sunday by the Wiley B. Allens by a score of 10 to 0. The game was full of fast, snappy playing, and had the large crowd of spectators on the jump at all stages. The visitors are a good team and not a single kick marred the game, which was umpired by Major George C. Collins in his customary efficient manner. A return game will probably be arranged. Score:

Golden Sheafs  
Toy With Goodyears

The crack Golden Sheafs of Berkeley easily defeated the much-touted Goodyears of San Francisco by a score of 10 to 1 at Freeman's Park Sunday afternoon. The game was too one-sided to be of any special interest to the large gathering of spectators, the Berkeleyans toying with their opponents throughout. The features of the contest were the masterly pitching of Tilling, the throwing to bases by Thurman and the bating of Nelson, Farrar and Becker for the winners. Nelson alone securing a brace of doubles.

CORDIAL WELCOME  
AWAITS FLEET IN  
JAPAN

Elaborate Functions Will Mark  
the Arrival of Battleships  
in Mikado's Ports.

TOKIO, July 28.—In anticipation of the visit of the American fleet to Japanese waters the municipal bodies of more than one port have already taken initial steps to extend to officers and men a hearty and characteristically Japanese welcome. On July 7 the Yokohama municipality held a conference at which the members discussed the proposed reception in honor of the fleet which is expected to arrive at Yokohama during October. Mr. N. Mitsushashi, the mayor, proposed that a garden party should be held on the cricket grounds to which should be invited 2,300 American officers, the American ambassador and his staff, and that about 20,000 yen should be spent by the city office on this entertainment. The proposal was unanimously carried. A bill providing for the expenditures will shortly be submitted to the city assembly.

Leading citizens will also give a banquet at the foreign hotel in honor of the American officers. In addition to the above entertainments the Yokohama Chamber of Commerce intends to give a Japanese dinner to the American visitors at a tea house. It is expected that the preparations for the occasion at the capital will be upon a proportionately elaborate scale, following the precedent created on the occasion of the last visit of the British fleet.

**FLEET STEAMING FAST.**

\$600,000 ERROR  
IN ASSESSMENT

City Council Sits for Last Time  
as Board of Equalization.

For the last time this year the City Council met last night as a City Board of Equalization, a number of recommendations of City Assessor Gross.

A clerical error of \$600,000 in the assessment of the holdings of the People's Water Company was corrected. President Louis Titus, representing the company declared that the improvements of the concern aggregated a value of \$60,000. Through an error in addition, the improvements were placed at \$600,000, this error being readily corrected and the reduction allowed.

CHAIRMAN WOODRUFF  
TO MEET ROOSEVELT

OYSTER BAY, July 27.—The announcement was made here tonight that Timothy Woodruff, chairman of the New York State Republican committee, had asked for an appointment with President Roosevelt and that the President had designated Wednesday as the day he would like to have the State chairman call on him at Sagamore Hill. The conference, it is expected here, will have to do with New York State politics, and especially with regard to the recent announcement of Governor Hughes, that he will accept a renomination if it is tendered him.

The weather is fine with the southeast trade winds blowing. The day has been uneventful.

**WELCOMING SQUADRON NAMED**  
TOKIO, July 28.—It is semi-officially announced that the first squadron under Vice Admiral Baron Iwaki has been selected to represent the Japanese navy in officially welcoming the United States battleship fleet which arrives October 17.

As but a limited number of these workers can be used by the circulation department it is imperative that those competent to do this line of work report early. Those not enjoying a vacation yet can find this equally pleasant and profitable.

This offer is but one more of opportunity THE TRIBUNE offers the public and its previous record of redeeming all promises insures a lucrative, pleasant time for those interested. No questions will be answered over phone. Aspirants must call in person and see some member of the circulation department.

BLIND WHEN STANDING;  
SEES WHILE LYING DOWN

Athlete Suffers From Curious Malady

NEW YORK, July 28.—On a cot in the Manhattan Eye, Ear and Throat Hospital is a patient suffering from an extraordinary form of blindness. He is a young man and in all other respects is not only healthy and vigorous, but a trained athlete. While he is standing or sitting in an upright position, he is almost totally blind, but while lying recumbent he sees objects distinctly and with his normal visual powers.

That has been his strange condition for about six months and for that period he has remained most of the time in a recumbent position. In its cause as well as in its effect, this peculiar form of sightlessness is remarkable.

## STRUCK IN EYE

The patient whose name the hospital physicians prefer not to reveal, was a member last winter of a well known team of basket ball players. In the course of one of the match games the ball struck him sharply in the eye, causing a brief suspension of play, but the blow seemed neither serious nor painful.

The young athlete made light of his mishap, and for a time appeared to suffer no ill effects. Later his eyesight began to trouble him and then the peculiar condition developed which made him sightless except when lying down.

## JARRED DELICATE ORGAN

As soon as he noted his falling sight the young man consulted specialists and when the condition of sightlessness

ness developed, it was decided that the blow from the ball had so affected the retina and other parts of the inner eye as to disturb the delicate adjustment of those organs and to cause the peculiar result noted, the retina being thrown out of its proper relation when the patient held his head in certain positions.

For six months the young man has been under special treatment by a new X-ray process, known as the X-ray "hashes," and the results are reported to be so encouraging as to warrant the belief that within another period of six months his sight may be completely restored.

STANDARD OIL HAS  
A RIVAL IN JAPAN

TOKIO, July 28.—The Takarada Oil Company continues its process of absorbing all its rivals. Some time ago news was published that it had purchased the Namboku and Fuji companies to run a sum of 1,660,000 yen and rumor says that it has now effected the purchase of the Hokuyetsu company for 260,000 yen, the Yamato for 100,000 yen and the Vitsu for 75,000 yen.

You might as well dress correctly. It doesn't cost any more. A. T. McDonald, high-class tailoring, southwest corner of Eleventh and Broadway, second floor.

## THOUSANDS OF DOLLARS IN ONE CATCH OF FISH

New York Fishermen Make a  
Rich Haul.

NEW YORK, July 23.—Deep sea  
fishermen of Seabright, N. J., made a  
phenomenal catch of bluefish yester-  
day. At sunrise two hundred brawny  
seamen who follow hand line fishing,  
put off to the banks opposite Sea  
Bright in one hundred fishing boats.  
About three miles off shore they ran  
into a big school of "blues" and for  
several hours were kept busy haul-  
ing in.

In the afternoon the fishermen re-  
turned, each boat carrying from 500  
to 800 pounds of fish. The catch ag-  
gregated fifty thousand pounds and  
was disposed of to buyers of commis-  
sion houses at the rate of five cents  
a pound. The fishermen received for  
their day's work \$3500.

the increase in population in the vi-  
cinity had rendered additional fire  
equipment necessary.

President Ellsworth of the Council  
explained that the Council had come  
on record as favoring the movement  
and assured the residents that the  
Council would care for their interests  
at the proper time.

## CONTRACTED DISEASES (GONORRHOEA) IN MEN

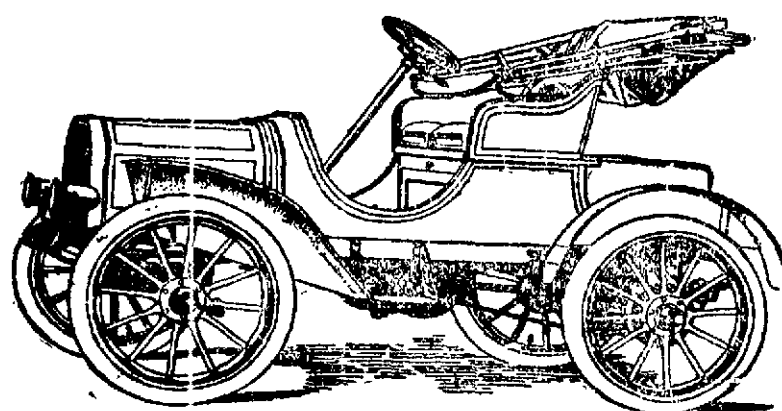

IF Men could only realize the very grave danger attending every case of  
contracted disease, they would seek a COMPETENT SPECIALIST'S  
advice AND HIS TREATMENT upon the manifestation of the very first  
symptom. To attempt to cure gonorrhea by the use of patent nostrums,  
recipies, or set prescriptions is most dangerous folly. Treatments of this  
nature NEVER CURE, though they may temporarily stop the discharge.

Though regarded by some as a trivial disease, requiring but simple  
treatment, gonorrhea actually RESULTS IN DEATH as frequently as does  
that hideous disease, syphilis. Unless every particle of infection and in-  
flammation is removed, the disease will work backward into the neck  
of the bladder, and COMPLETE LOSS OF SEXUAL POWER will ensue.  
When IMPROPERLY TREATED frequently even after years of APPAR-  
ENT health, troubles come in various aggravated forms. During the  
past four years we have treated over 4000 cases of gonorrhea, and have  
effected an absolutely thorough and safe cure in each instance. No re-  
lapses; no unfavorable developments. Our patients are CURED in less  
time by our thorough methods of treatment than other methods require to  
produce doubtful results. For every case we GUARANTEE OUR CURES, and  
YOU CAN PAY WHEN CURED.

## BLACK HAND MURDERER CAUGHT

Chicago Police Succeed in  
Making Arrest of Leader  
With a Bloody Record  
Behind Him

CHICAGO, July 23.—The Chicago po-  
lice believe they at last have in custody  
one of the leaders of the "Black Hand"  
Society, who is also accused of being  
a manufacturer of bombs, a murderer  
and a white slave agent. The suspect  
is Joseph Ruffino, announcement of  
whose capture at Milwaukee was made  
yesterday. Ruffino's wife, Sandino, al-  
so was arrested.

Ruffino, who is a native of Italy,  
is said to be wanted by the police of  
many cities in this country and also in  
Italy.

Information leading to the arrest  
was furnished to the police of Mil-  
waukee by Chicago detectives who  
had been searching for Ruffino and his  
wife since July 15.

### SOUGHT WOMAN'S DEATH

At that time Francesco Ruffino, a  
brother of Joseph, took Enrichetta  
Vacarino, 21 years old, to Rochester,  
N. Y., and attempted to marry her. It  
is alleged, because she knew too much  
about their "Black Hand" dealings.  
The woman was a "white slave"  
brought to this country five months  
ago, after the Ruffino brothers, accord-  
ing to the police, had killed a wealthy  
Italian at Sanquise, a Sicilian  
city, because he refused to submit to  
blackmail.

The woman was brought to Chicago  
and placed in a room where she re-  
mained until July 10, when she went  
to Rochester with Francesco Ruffino.  
Soon afterward Joseph Ruffino, it is  
charged, wrote to his brother to "do  
away" with the woman "because she  
knew too much."

Francesco cut her throat, but before  
he could finish the crime she fled to a  
police station.

He left Rochester and has not been  
captured.

### WOMAN INFORMS

The Vacarino woman revealed many  
"Black Hand" murders alleged to have  
been committed by the brothers in  
Italy.

When the detectives searched two  
trunks which Joseph Ruffino left they  
found two revolvers, several silencers,  
three pairs of brass knuckles, pieces  
of gaspique, about twenty bottles filled  
with various ingredients used in mak-  
ing bombs, and dies and stamps used  
by the "Black Hand" in signing threat-  
ening letters.

## JAPAN MAY ESCAPE THE HIGHER FREIGHT RATES

Protest of Press May Prevent  
Raise by Railroads.

TOKIO, July 23.—A feeling of less  
apprehension seems to be growing in  
Japan with regard to the ultimate ac-  
tion of the five American railways  
which threaten to raise their rates  
on goods carried eastward from the  
Pacific coast. If the originally pro-  
posed schedule be adopted, a crushing  
blow will be given to the trade in  
Japan's miscellaneous manufactures  
which now occupy a highly important  
place in her export trade. A com-  
bined protest having been made by the  
Nippon Yusen Kaisha, the Mitsui com-  
pany, the Toyo Kisen Kaisha and the  
Mitsui Bussan Kaisha, it is thought probable  
that the directors of the five railway  
companies will reconsider their deci-  
sion.

UTICA, N. Y., July 23.—Congress-  
man Sherman today called on Colonel  
William F. Cody (Buffalo Bill), and  
after conversing for a time with the  
old warrior, was escorted to the colo-  
nel's private box to witness the after-  
noon's performance of Col. Cody's  
show. The audience cheered the vice-  
presidential candidate and his party.  
During the performance the Indians  
in the arena gave him an ovation in  
a characteristic manner in recogni-  
tion of his services to their race as  
chairman of the Indian commission.

At a meeting of the City Council  
last night as a committee of the  
whole the matter of awarding a prize  
for lighting the city's streets and  
municipal buildings was referred to  
the City Council to be taken up at  
the next regular meeting.

The function of the kidneys is to  
strain out the impurities of the blood  
which are constantly passing through  
them. Foley's Kidney Remedy makes  
the kidneys healthy. They will strain  
out all waste matter from the blood.  
Take Foley's Kidney Remedy and it will  
make you well. Sold by all druggists.

THE ALCOHOL in beer is a trifle—only 3½ per cent.  
The effective ingredients are barley and hops—a food and a  
tonic. Pure beer is both good and good for you.

In Germany, Holland, Sweden, Denmark and Austria  
beer is the national beverage. Nearly all people, of all ages,  
drink it.

And all the world envies their sturdy strength.

Every doctor knows how beer benefits. If you need  
more strength or vitality he will prescribe it.

But be careful to choose a pure beer, else you get harm  
with the good. And select a beer well aged to avoid biliousness.

The way to be sure is to order Schlitz. We go to  
extremes in cleanliness. We even filter the air that cools it.  
We age it for months. We sterilize every bottle.

Schlitz has no after effects.

## GIVE VIEWS ON A NEW CHARTER WILL PAVE FRANKLIN STREET BOARD OF PUBLIC WORKS OF DECISION DEFERRED

### City Council, as a Committee of the Whole, Will Consider the Plans Which Were Endorsed by the Body Last Night

**City Council Listens to Arguments on Modern Organic Law and Defers Subject Till August 4th**

Representatives of various civic, commercial and labor organizations filled the lobby of the council chamber last night in response to an invitation to be present and give their views concerning a new charter for the City of Oakland and to touch incidentally the question of a city and county government. There were a number of ladies present who took a deep interest in the proceedings.

#### VIEWS OF DANIEL CROWLEY

Dan Crowley, of the Merchants' Exchange, said:

"The city at this time needs a new charter quickly as possible. A great deal of blame is laid on the councilmen because they do not do certain things when the fact is the present old charter does not permit it.

"A new charter I think should provide that the head of a department should be responsible for all work in his department. This is not a fact now.

"I think that, for one thing, a new charter would also aid in the work of consolidation. If submitted to a popular vote tomorrow I believe it would carry."

#### A. A. DENISON

A. A. Denison was the next speaker. In part he said:

"The matter of framing a new charter has been largely discussed and I think the time for argument is past. I want briefly to speak of one of the fundamental principles.

"The first of these is whether the people have a right to decide whether they want a new charter or not. You have in writing the recommendation of the mayor stronger possibly than I can give.

#### OTHER CITIES' NEW CHARTERS

"Gentlemen of the council, very much is demanded of you, and it seems to me that it rests with opponents of a new charter to present their arguments. All of the cities in the state have had new charters since Oakland has. The City of Oakland can not afford to do business in competition with other cities under an obsolete charter. We must have a modern, up-to-date, progressive charter.

#### CONSOLIDATION

"I am one of those who advocate a consolidated city and county government, but, before this can be done, we must have some inducement to offer. Is Oakland going to stand still and admit that we are in the rear while Alameda and Berkeley go and get new charters?"

#### THEO. GIER

Colonel Theodore Gier was the next speaker. He said that the business and labor organizations were not enthusiastic over the project. He said he based his remarks upon the attendance at certain meetings of the Merchants' Exchange and Chamber of Commerce. Colonel Gier said that both meetings were but scantily attended. He pleaded for more time for consideration.

#### MRS. S. C. BORLAND

Mrs. S. C. Borland, past president of the Civic Club and Suffrage Amendment League, spoke as follows:

"There is no question as to the benefits to be gained from a new charter. All things that touch the home are embodied in it. I believe that the cause of consolidation would receive much aid in a new charter."

#### ADJACENT MUNICIPALITIES

"I am fearful, if we adopted a new charter, badly as we need it, the adjacent municipalities would rebel at the request to a consolidated movement."

"Oakland is my birthplace and I do not intend to befall it—but God knows, gentlemen, we could have had a great city and a great harbor if we had seized our advantage. Why have we failed? Because we have not had a uniform government and we have, therefore, missed the great opportunity which was spread out before us."

#### RESULTS OF SLUMBER

"We have been asleep and we have paid the price for it. Russia was asleep when she met Japan and it cost her Manchuria. Spain was asleep and it cost her Cuba and Mexico. We must have some other procedure than that which we have had in the

**Council Goes on Record as Favoring the Project—Work Will Begin When Property Owners Sign Up**

Members of the city council last night went on record as favoring the immediate improvement of Franklin street, from Seventh to Twelfth streets, an improvement advocated by Mayor Mott and anxiously looked for by property owners along the street in question.

There was a resolution before the council for adoption granting an appropriation of \$16,000 by the city to pay its share of the expense of paving the street, it having been understood at the time the resolution was drawn that the property owners were to pay half of the expense.

#### NO AGREEMENT YET.

Owing to the fact that there was no written agreement of the property owners to this effect before the council, the adoption of the resolution was put over until the next meeting.

The council, however, on recommendation of Councilman Jackson, Elliott, Franklin and others, passed a vote to the effect that it was the sense of the council that the improvement was a necessary and laudible step and a motion was adopted asking the board of works to take steps to obtain an agreement from the property owners to pay half the expense of improvement.

#### READY TO COMMENCE.

When this agreement is forthcoming, which probably will be in the near future, Mayor Mott having been advised that the property owners are agreeable, the council will at once provide for the \$16,000 appropriation for the city's share of the expense, thereby providing for an early improvement of the street which promises to soon be one of the principal business thoroughfares of the City of Oakland.

#### PRACTICAL SOLUTION

George Sands said:

"I don't intend to discuss the fact that Oakland needs a new charter, but I think it is a practical solution of a difficult problem. The matter of consolidation is one of the most important affairs now before us, but before we can hope for consolidation we should have a new charter, a charter which will permit officials to carry on a municipal government."

"The expense of an election of freeholders will be no greater at this time than at any other time."

#### AN ANCIENT TOOL

Reuben Wiland, of the joint charter committee, said: "I wonder that you gentlemen can carry on a city government in such a thorough way with such a tool—a charter—as we work with. A new charter is the most necessary of all necessary things. Let's provide with this ancient tool and provide a new one."

#### SUBMISSION TO PEOPLE.

Councilman Elliott, in response to a call from the lobby, again made the statement that he heartily favored a new charter and had many ideas of his own which would be presented at the proper time concerning many ideas for a new charter. He advocated submitting the question to the people for a vote.

#### MOTION LOST.

A motion was then made by Elliott, seconded by Councilman Jackson, to the effect that the city attorney be instructed to draw up an ordinance fixing the time for calling an election of a board of freeholders. The motion was lost.

The motion was lost, a vote of the councilmen feeling that the city officials other than the councilmen should be heard from, they having failed to put in an appearance last night.

#### DEFERRED TILL AUGUST 4.

Elliott then moved that the matter be laid on the table until August 4, and that the council meet on that day for the purpose of considering it. The motion also included a request that the city officials and the joint committee of the local commercial organizations be invited and requested to attend the meeting on that date. This motion was carried.

#### DAMAGED DYNAMITE WORKS TO RE-OPEN

BERKELEY, July 23.—Work will be resumed in the Vincent dynamite works next Monday morning with a full force of men. The works were obliged to close down on June 18 because of destruction of the mixing house by explosion of nitro glycerine and damage to other buildings. Two men were slightly injured. During the shutdown the plant has been equipped with new machinery. All the old employees will resume their places next week, according to Superintendent Neilson, and the force will be gradually increased.

**City Council, as a Committee of the Whole, Will Consider the Plans Which Were Endorsed by the Body Last Night**

On the night of August 10, next, the city council sitting as a committee of the whole, will consider the water front plans as prepared and recommended for adoption by the council committee on wharves and water front. At this time the representatives of various labor organizations, civic bodies and city officials have been invited to be in attendance to take part in the discussion concerning the adoption of the plans and the best method of procedure in making the all important water front improvements.

#### FAVORED BY COMMITTEE.

Concerning the recommendation of the water front committee consisting of Councilman Jackson, Chairman and Councilmen Burns, Everhart and Bronner, the following was filed with the committee of the whole:

"Your committee to which was referred (from the council) the plans of the Chamber of Commerce, as drawn by J. T. Flynn, as well as the plans submitted by the board of works, as drawn by Engineer P. F. Brown, recommended as follows:

#### POSTPONED ACTION.

Section two and three, it was explained, consist of the estuary and the so-called "white meat," between the Western Pacific and Southern Pacific moles.

It was proposed to adopt the plans last night under recommendation of the committee, but on motion of Councilman Elliott this was put over until Aug. 10.

Preliminary to calling a bond issue election and acting under advice of City Attorney McElroy, the following resolution which does not bind either the Council or the City Administration but paves the way for calling such election at any time, was adopted.

#### CALL FOR BOND ELECTION.

"Resolved, That the Council of the City of Oakland hereby determines and declares that public interest demands the acquisition of certain municipal improvements, to-wit: The construction and completion of wharves, piers and slips on the harbor and water front of the City of Oakland.

#### THAT THE SAID IMPROVEMENTS ARE NECESSARY AND CONVENIENT TO CARRY OUT THE OBJECT AND POWERS OF THE MUNICIPALITY OF OAKLAND.

That the cost of the construction and completion of said wharves, piers and slips is too great to be paid out of the ordinary annual income and revenue of the said City of Oakland."

ed as follows:

"We recommend the acceptance and approval of sections one, two and three as set forth in the plans and specifications submitted by the board of public works, and drawn by Engineer P. F. Brown, under the direction of City Engineer Turner, said sections being part of the general plan for proposed improvement of Oakland's water front, filed July 5, 1908."

"We recommend municipal ownership and control of Oakland's wharves and docks."

"We recommend a bond election in the immediate future for improvements in sections two and three."

Section two and three, it was explained, consist of the estuary and the so-called "white meat," between the Western Pacific and Southern Pacific moles.

It was proposed to adopt the plans last night under recommendation of the committee, but on motion of Councilman Elliott this was put over until Aug. 10.

Preliminary to calling a bond issue election and acting under advice of City Attorney McElroy, the following resolution which does not bind either the Council or the City Administration but paves the way for calling such election at any time, was adopted.

"Resolved, That the Council of the City of Oakland hereby determines and declares that public interest demands the acquisition of certain municipal improvements, to-wit: The construction and completion of wharves, piers and slips on the harbor and water front of the City of Oakland.

That the cost of the construction and completion of said wharves, piers and slips is too great to be paid out of the ordinary annual income and revenue of the said City of Oakland."

**Board of Education Postpones its Selection of a Furnace for the Washington School**

A special meeting of the Board of Education of the city of Oakland was held at the city hall last evening the following members being present: H. Redington, W. A. Greenwood, J. S. York, E. C. Backlund, F. J. Cook, J. E. Crandall, F. M. Greenwood, J. S. Kelly, L. F. Stevenson and C. H. O'Connor.

The meeting was called for the special purpose of considering the different proposals which are offered for the equipment of the Washington school for heating purposes. The representatives of three firms of burning furnaces and radiators appeared before the Board of Education and each advanced the merits of his particular appliance at length. The board considered the proposition with the utmost care, an effort to provide the new building with the best possible heating apparatus.

At the conclusion of the address by the representatives of the various firms, a motion was made that one of the existing appliances which cost in the neighborhood of \$1200 be installed. The motion, however, was lost by a vote of the board. A motion was next put, asking the acceptance of another of the appliances costing approximately \$1500. This motion was also lost by a vote of the board. It was finally moved and carried that the matter be laid upon the table until the next regular meeting of the board, at which a decision would be reached.

## WORK WITH HARRIMAN

# Upon Return to New York He Announces He Would Welcome Assistance of Railway King.

"I cannot say except that nothing would give me greater pleasure than to leave Mr. Harriman with us. We need him. He is the help of a billion men. We cannot do without him. I am not a happy one. Some of the diamonds have dropped from our crown. I could say that he knew nothing concerning an arrangement for the payment of \$8,000,000 of notes of the Wheeling and Lake Erie Railroad which fell due to August 1. Concerning the matter, he said:

"We are not yet out of the woods. While business had not yet reached the volume of last year, he added, his affairs were now doing nearly a normal business. The recoverings of some of his roads, he stated, were of a friendly nature and were designed to keep the property in the hands of the owners and protect them from hostile states and could lead much stress upon the excellence of crop conditions which he particularly emphasized effected the welfare of the country."

Concerning the Standard Oil decision, Gould expressed unqualified satisfaction. "I think," said Mr. Gould, "that marks the turn in the business situation. Looking at it from the standpoint of railroad credit, nothing could be better than this credit abroad that the huge line assessed by Judge Lanes. The foreign investor felt that at any time his property might be confiscated through no fault of his own. Judge Crosscup's decision again affirmed the American motto of fair play."

Mr. Gould added that he thought the time to answer for corporation misdeeds was some one individual not the innocent stockholders.

"I would not say that following the Gould's return there would be a series of conferences between representatives

atives of the Goulds' in reests, Harri-  
man and Kuhn, Loeb & Co., and this  
as a result the Gould roads will receiv-  
strong financial support and Mr. Harri-  
man and Kuhn, Loeb & Co. will have  
share in the management of the  
Gould system. Negotiations looking  
to that end are said to have taken  
place before Mr. Gould went abroad.

Rival Candidates Invited to Give

**Addresses at Denver During Week of Colorado Fair.**

DENVER, July 28 — Invitations have been sent to William H. Taft and William J. Bryan, the rival Presidential candidates, to attend the Interstate Fair and Exposition in this city September and deliver addresses. Following is a copy of the letter which has been sent to each of the candidates:

"The people of Colorado and bordering states are taking an unusual interest in national politics this year, and are already discussing the relative merits of the platforms of the two candidates. I am in receipt of numerous requests from different parts of the state asking that the Presidential candidates on the Republican and

democratic tickets be invited to attend our Interstate fair and exposition and make short speeches on the important questions involved.

**WEEKS LABOR DAY.**

"The exposition will be opened on Labor Day, Monday, September 7, on each occasion an attendance of 50,000 people is expected. The exposition will continue the entire week and on Tuesday, September 8, has been set apart as Denver Day and proclaimed a holiday by the mayor.

"It affords me great pleasure to extend to you a cordial invitation to be a guest of the Colorado Interstate fair and Exposition on one of the above dates, or on such other date during the week of September 7 as may suit your convenience to be

## YOUNG MAN GIVES UP HIS LIFE TO SAVE GIRL FRIEND

CHICAGO, July 28.—A despatch to the Record Herald from Valparaiso, Ind., says:

A. S. Reesor, aged 22, of Bandana, Ky., a Valparaiso University law student, gave up his life last night for Miss May Bradbury, also a student. They were walking on the Pennsylvania Railroad track. A westbound train came along and held their attention so that they did not notice the east-bound limited, which was coming from the opposite direction, until it was upon them. Reesor was able to assist his companion from the track. In doing so he was struck by the locomotive and thrown thirty feet. He died as he was being carried to a hospital. The shock rendered Miss Bradbury unconscious and up to a late hour she had not regained consciousness.

## GIRL RETURNS TO CITY ON STRAITS

MISS ADA SMITH.

## STRUCK BY TRAIN BUT WILL RECOVER

Mrs. Martha Weldon, Who Was Hit Yesterday, Is Greatly Improved, Says Doctor.

ALAMEDA, July 28. — Mrs. Martha Weldon, the young woman who was struck by a narrow gauge train of the Southern Pacific yesterday afternoon, will recover, according to Dr. Koy, the physician who attended her. Mrs. Weldon was quite seriously injured, sustaining a bad cut on her head, a sprained hip, and a number of severe bruises on different parts of her body. Her injuries are severe, and she is still at the Alameda sanatorium, where she was taken yesterday afternoon by the ambulance. The accident to Mrs. Weldon happened on Encinal avenue near Broadway. It is not known whether she failed to hear the whistle or was suddenly taken ill. The first thing she knew about it, she says, was when the train struck her. The accident happened at a point on Encinal avenue where a fence from an adjacent yard is placed within a very few feet of the track, and leaves but little room for pedestrians along the side of the track. No one in the neighborhood saw Mrs. Weldon struck by the train, although she was found lying at the side of the track immediately afterward. She was just returning from a marketing trip and several packages of groceries were scattered around at the place where she was struck. Officer Brown reported to the police that Mrs. Weldon was struck by Engine 1560 in charge of Engineer Dan Quill.

Mrs. Weldon lives at 1801 Broadway.

If every woman would realize the danger of allowing the blood to become thin and poor, would understand that a majority of common diseases are caused by an anemic (or bloodless) condition, that persistent pallor means that the blood is not furnishing the organs of the body with the required amount of nourishment, there would be an awakened interest in the tonic treatment with Dr. Williams' Pink Pills.

This thin blood means starved nerves, weakened digestion, functional disorders, headaches, possibly neuralgia, sciatica and even partial paralysis.

## INDICT 36 TUREMEN OF NOTE

Grand Jury Completes Investigation by Holding Men for Violation of Anti-Gambling Laws

NEW YORK, July 28.—Thirty-six men were indicted by the Kings county grand jury today on charges of violating the anti-gambling laws at the race tracks. Those indicted include some of the most prominent men who formerly occupied stools in the betting ring.

Among the men named in the indictments are Joe Vondig, Charles Kissel, Adam Kissel, Edward Kissel, Harry Kissel, Harry Kissel and Michael Kissel.

MISDEMEANOR CHARGES.

They are all charged with misdemeanor under the new laws, for which the penalty is one year's imprisonment without alternative of fine.

The grand jury which returned the indictments has been investigating conditions at the race track for several weeks. All those indicted were notified to appear in court today and long before the hour of the opening of court the corridors of the court house were thronged with men whose faces have long been familiar at the tracks.

**Boy's Life Saved.**  
My little boy, four years old, had a severe attack of dysentery. We had two physicians; both of them gave him up. We then gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy, which cured him and believe that saved his life. There is no doubt but this remedy saves the lives of many children each year. Give it with caution all according to the plain printed directions and a cure is certain. For sale by Osgood Bros., 14th and Broadway and 11th and Washington streets.

**Take a Vacation.**  
Now is the time to take a vacation, get out into the woods, fields and mountains and visit the resorts, but do not forget to take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy along with you. It is almost certain to be needed and cannot be obtained on railroad trains or steamships. It is too much of a task for anyone to leave home on a journey without it. For sale by Osgood Bros., 14th and Broadway and 11th and Washington.

## CHAMBER ISSUES ATTRACTIVE BOOK

The Chamber of Commerce has just issued one of the most attractive little books, concerning this city and county, which has ever been sent out. The reading matter has been arranged in

an interesting and concise way, which sets forth the many advantages of this side of the bay.  
**ILLUSTRATIONS GOOD.**  
Some interesting photographs of scenes in and around the city appear. They give a good idea of the many picturesque places and residence spots here. Many facts of interest have been set forth, not the least among them being that this city is the second in manufacturing importance in the State.  
**OAKLAND'S GROWTH.**  
Under the title of "Figures that Talk," a long list of comparative figures are given which show how greatly Oakland has grown in wealth and commercial influence during the past few years.
